

CU Taurus

Your tough security

Features	Stand-Alone control unit, network administration, designed for up to 100 fingers, with integrated data base. Administration with FPrint software over Ethernet from a Windows PC. Time slices, security groups, log files etc.
Application	Stationary indoor use. Used mainly in access control, time attendance and vaults.
Compatibility	to all Dakty fingerprint scanning devices
Case	plastic ABS
Color	gray, similar RAL 7035
Dimension	150mm x 150mm x 57mm
Operating System	Linux
Power Supply	9 to 35 V DC
Input Power	peak: about 6 Watt idle: about 2 Watt
Interfaces	sensor interface parallel TTL 8 x bidirectional data bits, 4 x control bits Ethernet RS485 / RS232 / (Wiegand)
Relays	4 relays potential free, max 1A, max 48V, free configurable
Personal Data	central enrollment and user administration under Windows; permission distribution over Ethernet
Recognition	about 1 sec. up to 100 fingers (depending on count of minutiae)
Temperature	0°C to +40°C (32°F to 104°F)
Storage Temperature	-20°C to +85°C (-4°F to 185°F)
Available	immediately
Article Nr.	C 101
