

## CU Ursus

*Your tough security*

Features	Stand-Alone control unit, network administration, designed for up to 3000 fingers, with integrated data base. Administration with FPrint software over Ethernet from a Windows PC. Time slices, security groups, log files etc.
Application	Stationary indoor use. Used mainly in access control, time attendance and vaults.
Compatibility	to all Dakty fingerprint scanning devices
Case	aluminum
Color	metallic / black
Size	293mm x 295mm x 57mm without fixing corners 323mm x 295mm x 57mm with fixing corners
Operating System	Linux
Power Supply	230 V AC, 50 Hz
Input Power	peak: about 15 Watt; idle: about 8 Watt
Interfaces	sensor interface parallel TTL 8 x bidirectional data bits, 4 x control bits Ethernet 2 x RS232
Relays	4 Relays potential free, max 1A, max 48V, free configurable
Personal Data	central enrollment and user administration under Windows; permission distribution over Ethernet
Recognition	about 1 sec. up to 500 fingers (depending on count of minutiae)
Temperature	0°C to +40°C (32°F to 104°F)
Storage Temperature	-20°C to +85°C (-4°F to 185°F)
Available	immediately
Article Nr.	C 301
